Den, Melissa,

I think you heard that we were asked by FEMA to do a Scope of Work. LauraC and I are here to work on it.

Guessing we may need to collect samples? Maybe not if WV folks want to keep one lab doing all?....

Apparently, the Civil Support Team also collected samples...

Subject: WV chemical spill

Patti-Kay,

Apparently, FEMA has asked us to put together a Scope of Work for an assessment.

It will be generic but I am predicting that, if we collect samples, we'll need to know what to analyze for, what method, etc.

My question: Do you know who has analyzed for the chemical to date, what compounds of the mixture were analyzed for and methods they are using?

Thanks.

Jack
